

Nicholai Oblina

Developer & Builder | Philippines

nichobusiness17@gmail.com | github.com/nichoblina | nichoblina.github.io

SUMMARY

Full-stack developer who ships end-to-end products - design, frontend, backend, and deploy. Creator of kwek.cards, an AI-powered study platform. Also builds lean websites for small businesses.

SELECTED WORK

kwek.cards - AI study platform

Solo build | Next.js 15, TypeScript, Supabase, Groq, Tailwind

- Turns notes and uploads into flashcards and quizzes in seconds
- Auth, offline-first storage with cloud sync, AI generation with guardrails
- File preview with highlight mode and community hub for sharing decks

Small-business website kit

Freelance | HTML/CSS, static hosting

- Production-ready templates for cafe, trades, salon, and gym businesses
- Deployment, pricing, and sales playbooks included

kwek mobile (in progress)

React Native / Expo companion app

- Study decks anywhere with offline support

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind, HTML/CSS

Backend: Supabase, PostgreSQL, Node.js, REST

AI: LLM integration, Groq, prompt design

Ship: Git, Vercel, Netlify, UI design

SERVICES

Websites for small businesses - live within a week, near-zero monthly cost. Free demo before payment. Starter one-pagers through multi-page storefronts with booking and local SEO.
